

Free Software for Fluid Flow and Pressure Drop
Calculations in Pipes and Piping Elements as Bends,
Reducers, Tees, Valves, Orifices and more.

Pressure drop calculations based on well-known and respected references in the field of fluid flow

- o Handbook of Hydraulic Resistance, I.E. Idelchik
- o Internal Flow System, D.S. Miller
- o Pipe Flow A Practical and Comprehensive Guide, D. C. Rennels, H. M. Hudson
- o CRANE Flow of Fluids Through Valves, Fitting and Pipe Technical Paper No. 410
